

Risk Management Policy

Ausenco provides a comprehensive range of project management and multidiscipline engineering services to client organisations in the global resources and energy sectors. Risk management is critically important across all of our activities. Our policy is to identify and manage risk in accordance with approved and continually improving practices through appropriate education and training throughout our global business.

We are committed to sound risk management practices, including the integration of risk management throughout all levels of the organisation as being fundamental to achieving Ausenco's strategic and operational objectives.

We are committed to the identification, measurement, monitoring and mitigation of risks wherever they present a threat or an opportunity to our business objectives. We will establish a culture of risk consciousness within our organisation and promote risk awareness with our clients.

In support of this policy, Ausenco commits to the following strategic risk management objectives:

- We will identify and assess risk in all our activities.
- We will apply a coordinated and integrated approach to risk management.
- We will develop and continually improve risk management practices based on established international standards and industry best practice.
- We will promote risk awareness in every activity and with all of our people.
- We will adopt risk management strategies which promote confidence in the achievement of optimal business outcomes.
- We will extend our risk management capabilities to our clients to enhance management of their project risks, or use

our client's policies and procedures if they are considered suitable.

- We will ensure that our approach to risk management reflects our commitment to the Core Values of our business.

Responsibility

The Ausenco Board is ultimately responsible for risk management across our business and for communicating the requirements of this policy.

The Audit and Risk Management Committee, in conjunction with the Ausenco Leadership Team, are responsible for the development of the risk strategy and its implementation, ongoing monitoring and continuous improvement.

The Chief Commercial Officer is responsible for the leadership, direction and coordination of risk management throughout our business.

The Ausenco Leadership Team is responsible for monitoring those risks which pose the greatest threat to the achievement of corporate business objectives. Each business line president and business area manager will carry responsibility for managing risks within their own business line or area.

The Commercial and Risk Management team will disseminate risk management strategies, tools and techniques, and will facilitate risk awareness and risk management best practice.
